

Dialysis Corporation of America Announces the Opening of New Dialysis Center in Georgia

LINTHICUM, Md., August 2, 2006 – Dialysis Corporation of America (NASDAQ:DCAI) announced the certification and opening of its new dialysis facility in Calhoun, Georgia which began construction earlier this year, as previously announced.

President & CEO Stephen Everett commented, “Our newest facility in Georgia opened earlier this week after passing all required inspections. The facility, which began treating patients on Monday, has already achieved a census of more than 50 patients. Calhoun, which is north of Atlanta, is our 7th dialysis center in the state.”

The new facility offers state-of-the-art equipment and technology, has been designed with patient comfort in mind, and includes 15 treatment stations.

Dialysis Corporation of America currently owns or manages 32 free-standing operating kidney hemodialysis centers in Georgia, Maryland, New Jersey, Ohio, Pennsylvania, South Carolina and Virginia providing patients with a full range of quality in-center and at-home dialysis services, as well as providing in-hospital services. The company has three new centers under development in Georgia and South Carolina.

This release contains forward-looking statements that are subject to risks and uncertainties that could affect the business and prospects of the company and cause actual results and plans to differ materially from those anticipated. Those factors include, but are not limited to, maintaining continued growth and profitability, delays beyond the company's control with respect to future business events, the highly competitive environment in the establishment and operation of dialysis centers, the ability to develop or acquire additional dialysis facilities, whether patient bases of the company's dialysis facilities can mature to provide profitability, the extensive regulation of dialysis operations, government rate determination for Medicare reimbursement, pricing pressure from private payors, and other risks detailed in the company's filings with the SEC, particularly as described in the company's annual report on Form 10-K for the fiscal year ended December 31, 2005. The historical results contained in this press release are not necessarily indicative of future performance of the company.
